04/2024 - Present

Noida

Backend Developer

Delimp Technology Pvt. Ltd

03/2023 - 03/2024

Noida

Full Stack Developer

Measurecity Solutions

10/2020 - 02/2023

Remote

Backend Developer

Javin Enterprises

02/2020 - 09/2020

New Delhi

PERSONAL PROJECTS

Scheme Rajnigandha (04/2024 - Present)

- A gift distribution platform developed for DS Group distributors, enabling the redemption of physical scratch cards through a secure, algorithm-driven reward system. The system dynamically generates gift outcomes based on a multifactor algorithm incorporating user redemption history, demographic segmentation, and configurable business rules defined by administrators. The platform also includes a complete logistics module for tracking and managing gift delivery. End-to-end development was handled in **Laravel**, covering both frontend and backend components, along with **RESTful API** development for seamless integration with third-party systems and mobile clients.

Sellit (08/2023 - 10/2023)

- A CRM project built using Laravel framework included developing frontend and backend of the application, Integration of Stripe payment gateway APIs for creating subscriptions.

Mcghee Engineering (04/2023 - 06/2023)

- Developed a project based on Laravel consisting functionality to manage projects, customers and order information with integration of Paypal payment gateway.

Ilolas (06/2023 - 08/2023)

- Developed using CMS Wordpress, this is a collaboration platform among brands and influencers. Brands can offer products, influencers can send requests to promote those products. Work done on integration using Sendgrid, Pabbly, etc. Plugin for adding products to wishlist was also developed.
